Girbau Creative Services offers signage and labeling for Continental Girbau laundries and Express Laundry Centers, as well as complete custom designs. All signs are available for direct shipment.

Material, Sizes & Pricing

The material we use for our laundromat signage is PVC board. PVC boards are waterproof and do not exhibit any such reaction to moisture which is why we choose this material for laundromat environments. If you would prefer a different material, please let us know prior to preparing your estimate. Available as sign only, with picture hanging strips on the back side for wall mounting, with metal holders that allow the sign to stand up on a machine or bulkhead, or with hanging hardware that allows variable height hanging (up to 36") from a suspended ceiling, we have options to meet your laundry's needs. Signs can be one- or two-sided using any combination of available signs or customized graphics.

Custom Signs?

Signs can be modified or completely customized upon request. See examples of our custom signs on pages 16 & 17. Please contact your local distributor or Girbau Creative Services directly at **800-256-1073** for more information.

Most orders will incur a sign package preparation fee which is billed at \$80/hour and will be included in your estimate before work is started. This fee covers sign customization including logo placement and brand colors, programming and payment system, proofing, standard rounds of customer revisions and preparation of final files for production.

This fee will be estimated based on the design and requests of the customer submitting the sign order.

To order, please fill out the accompanying order form and e-mail to info@getgirbaucreative.com or call us at 800-256-1073 to get started.

Shipping and handling costs are additional for all orders. Please refer to the order form for details. Prices noted in catalog are subject to change without notice.
