Reference	Subject	Date
EB-145	Stainless Steel Water Valve Bracket	12/7/2021
Product	EH090, EH130, EH190, EH255	

Summary	The water valve inlet bracket on Girbau North America's (GNA) larger chassis washing machines has been changed from galvanized to stainless steel. GNA recommends to change out these brackets on your existing machines. Normal warranty process for the bracket replacement will take place. GNA will replace any brackets that you have in your inventory. Please place an order for new brackets and return the galvanized ones. Once GNA's Parts Department receives the galvanized ones back we will be issued a credit for the parts. The part number for the bracket has not changed.
