Reference	Product Improvement	Date
PB-150.R1	LG Base Improvements	10/18/22
Product	LG Washer and Dryer Elevated Bases	

Summary

A rolling change has been made to LG Platinum and Titan elevated bases to increase strength and improve performance.

Base Part Number

Platinum series: LG-BASE-PLATINUM
Titan series: LG-BASE-TITAN PRO

Changes

- The (4) Brackets used to retain the machine on base have been replaced with (2) C Channel Brackets.
 - Improvements
 - C Channels improve torsional strength of the base.
 - Provides tighter capture of leveling legs to reduce machine movement on base
 - Washer and Dryer fronts will now have equal alignment to the front of the base when installed.
- The base sides have (4) holes so that bases can be bolted together in series
 - Bases can be “ganged” together and leveled prior to machine installation. Provides cleaner machine installation and eliminates movement in the laundry room.
