

CP32130

COMPACTPRO IRONING SYSTEM

Engineered for medium- and high-volume laundries where space is at a premium, the CompactPro Ironing System not only features a compact design, it quickly feeds, irons, folds, stacks and accumulates at speeds of up to 49-feet-per-minute — improving PPOH.

FEED The Compact automatically adjusts feeding speed for one or two operators.

DRY The Compact's heat output allows for ironed linens without dryer preconditioning.

IRON The Compact's roller surface and interwoven straps ensure a high-quality and consistent finish.

FOLD The Compact can fold up to 3 cross folds using 1 lane and up to 2 cross folds using 2 lanes.

STACK & ACCUMULATE The stacker delivers consistent, high-quality stacks.

PRODUCT FEATURES

COMPACT DESIGN

- Less space required for installation
- Increase production within a small space

CAPABILITY TO PROCESS LARGE ITEMS

- Processes large and king-sized pieces in a compact machine
- Feeds a large array — both size & shape — of linen
- Offers a wider range of laundering services to the customer
- Processes large dimension items with one operator

INTELI TOUCH-SCREEN CONTROL

- Industrial touch screens
- Intuitive icons rather than text
- Durable design
- Easy-to-use and versatile

CROSS-FOLD DESIGN

- More control over the linen
- Adapts for varying fabric thicknesses
- The high position of the cross platform and access windows allow for easier maintenance and more control, visibility and accessibility of parts and linen
- Easy maintenance
- Reduced downtime

ACCESSIBILITY

- Quick access to common parts
- Increased visibility of linen improving quality control

AUTOSPEED MODE

- Maintains an even and stable temperature throughout ironing process
- Linen is perfectly dried in one pass

DROP PLATE STACKER

PROCESS A VARIETY OF ITEMS
